OBJECTIVE

I am a results driven creative leader with over 17 years experience in design. I work to achieve constructive results with emphasis on user interaction and experience. I am seeking a position that will better utilize my skills and further my professional experience.

EXPERIENCE

PRODUCT DESIGN MANAGER, UX MANAGER, SENIOR DESIGNER

Citrix Systems | 07.2011 - Present

- Manage a team of researchers, designers, and developers across multiple Geos
- Manage and maintained team deadlines, scheduling with stakeholders, and final deliverables.
- Lead a dedicated design and research team to build a holistic product experience from conception, implementation, and promotion.
- Work with developers through final stages of development and testing to deliver a refined product design and experience.
- Identified requirements and researched market analysis for design and product direction.
- Designed the user interaction model, work flow and user experience of web based applications
- Mentored and art directed individual contributors in career and project based goals.
- Lead an international team of developers and designers in creating cutting edge web applications for enterprise services.
